

Global Pharmacovigilance

The Global Pharmacovigilance Department is responsible for the collection, processing and analysis of adverse events for Mallinckrodt's pharmaceutical products in compliance with regulatory requirements. The goals of the Global Pharmacovigilance Department are to minimize or prevent harm to patients by identifying new safety concerns and/or hazards associated with Mallinckrodt medicinal products and to implement risk-minimization measures when appropriate. You may contact Global Pharmacovigilance as follows to report any side effect / adverse drug experience:
